

SPANISH FRIARS MADE CAPTIVES

Bearing Dispatches to Aguinaldo.

FROM THE FILIPINO JUNTA AT HONG KONG.

Campaign Against the Mountain Robber Bands in Negros Was More Successful Than First Reported.

Capt. Byrne, With Seventy Men of the Sixth Infantry, Killed One-Third of the 450 Assembled.

Manila, July 24.—[Special]—Two Spanish friars traveling in disguise and bearing important dispatches from the Filipino junta at Hong Kong to Aguinaldo, were arrested by the American authorities as they left the steamer here today. The campaign against the Mountain Robber bands in Negros was more successful than at first reported.

Captain Byrne, with seventy men of the Sixth Infantry, killed one-third of the four hundred and fifty assembled, including their leader, a Spaniard.

Pursuit was then made by Lieut. Evans and a detachment of the Sixth Infantry, who killed three and captured one of the robbers and also captured one hundred head of stock, many spears and bolos, a large quantity of provisions and destroyed a hundred huts.

The casualties in Byrne's fight were: Privates David Anderson killed, and Albert Jerks was slightly wounded.

Dispersion of Bandits

Washington, July 24.—[Special]—The dispersion of the bandits on the Negros is being pursued energetically in spite of the rainy season, which caused a cessation of offensive operations in Luzon, according to a dispatch received at the war department this morning.

Washington, July 24.—The president has been advised by some of the critics of Gen. Otis to again send Gen. Wesley Merritt to the Philippines to take command. It is claimed that since Merritt outranks Gen. Otis and was his superior officer in the beginning of the Philippine campaign he could be returned to Manila without any humiliation to Otis.

Nothing will be done at once to change the command in the Philippines. The president is satisfied with Gen. Otis' work there, both as a soldier and as governor-general. Otis is regarded by the president as the best-equipped man in the army for the difficult position of governor-general, as he is an able lawyer and a man of affairs as well as a soldier.

While the rainy season continues there will be little fighting in the Philippines. The principal anxiety of the president is that the troops shall be well cared for during the rainy season, that they may be fit for service again when the rains cease and the country is in condition to renew offensive movements.

When the climatic conditions will permit the resumption of active operations against Aguinaldo there may be a division of duties which will leave Gen. Otis the chief executive officer as governor-general and place another officer in command of the troops to conduct the campaign against the Tagal rebels. The work of the governor-general is now more identified with the reorganization of peaceful provinces than with the insurrection, and it may become necessary to intrust the campaign against Aguinaldo to an officer who can give his entire time to such work.

In that event it is probable that Gen. Lawton will be given command of the troops, while Otis remains as governor-general of the islands.

It is not probable that either Gen. Miles or Gen. Merritt will be sent to the Philippines. Miles is in command of the army, and prefers to remain in Washington. While Merritt was sent to the Philippines last year because that was his own choice of commands, he asked leave to return after the surrender of Manila and was again assigned to his old command of the department of the east. Whatever change may be made in the Philippines when operations are renewed are likely to be in the line of promotion of Lawton to command the troops in the field.

Change in Gen. Miles' Position.

Washington, July 24.—Officers of the army who are in a position to know unite in the opinion that the status of Major-Gen. Miles in the war department will be materially changed upon the assumption by Elihu Root of the duties of secretary of war. It is already said by friends of Mr. Root that Gen. Miles will be consulted freely in army matters by the new secretary.

Army officers say that if Gen. Miles is consulted by the new secretary of war regarding affairs in the Philippines he will undoubtedly recommend a change in the commanding general at Manila. Gen. Miles, it is known, does not approve of the policy adopted by Gen. Otis in the far east, particularly concerning his opinion as to the number of troops needed, and it is understood without hesitatingly advise his recall.

Money Offered Filipinos.

Independence, Kas, July 24.—Under date of May 31 Emil G. Etzold, com-

pany G, twentieth Kansas, writes from Manila to his sister in this city. Among other statements he says: "They say that our regiment will be relieved in a few days, but I think we are in it until it is finished. I think it will not be long now until this war is over and that the volunteers will go home. There were two of Aguinaldo's officers here yesterday to negotiate on peace terms, and nobody knows yet what they did about it. They are anxious to have the war stop, and our government has offered \$30 Mexican money for every man who will come in and give up his gun."

Later Report of Negro Fight.

Washington, July 24.—The war department has received from Gen. Otis another dispatch, giving additional particulars of the fight between Capt. B. A. Byrne with seventy men of the Sixth Infantry and robber bands in the island of Negros. It shows that the victory of the soldiers was greater than that reported in Gen. Otis' dispatch of July 21, and that the loss suffered by the robbers was considerably larger than before state.

A NEW PARTY THE RESULT OF STRIKE

LAUNCHED YESTERDAY BY NEW YORK LABORERS.

Hundreds of Delegates Representing Every Trades Union Met and Decided Upon Such Action—Evidence of Recent Trouble Disappearing—Cars Run as Usual.

New York, July 24.—[Special]—A new political party, the outgrowth of the street railway strikes has been launched. Hundreds of delegates representing every trades union in Greater New York at a meeting Sunday decided upon this action.

A convention is called for August 7, and every union and reform body in the city will be asked to send delegates.

All evidences of the strike are disappearing and cars are running on schedule time on nearly all of the lines.

The Population of Asia.

In Asia the 826,000,000 are distributed in the following manner: China takes the lead with 350 millions, British India with 278 millions, Japan with 40, East Indian Islands with 39½, French possessions in India with 19, Korea with 10½, British Burma with 7½, Persia with 7½, Asiatic Russia and Turkestan with 7½, Siberia with 4½, Afghanistan with 4, Ceylon with 3, Arabia with 2½, all other parts of Asia with 43½ millions. Of every 1,000 Asiatics 424 are Chinese, 337 are Hindus, (subjects of Great Britain), 48 are Japanese, 48 are Indian Islanders, including 23 in the French possessions, 13 are Koreans, 11 are Siamese, 9 are Burmese, 9 are Persians, 9 are Russians, 5 are Siberians, 5 are Afghans, 4 are Singhalese, 3 are Arabs and 52 belong to smaller nationalities.

The Term of Life.

Recent inquiries in Great Britain have led to the preparation of tables showing the "full term of life" for man, and other mammals, based upon the theory that there is a fixed ratio between the period required to reach maturity and the total length of life. Accident, disease and so forth have to be eliminated from the calculation. According to these tables, only one animal exceeds man in its full life term, namely, the elephant. For man the theory makes the average term about 60 years, and for the elephant something over 100 years. Next to man, in longevity, come the camel and the Arabian horse, whose term of life is about 42 years.

The Duchy of Cornwall.

The Duchy of Cornwall, from which source the Prince of Wales draws the largest portion of his income, was first granted to the Black Prince, eldest son of Edward III., in 1337. In the reign of William III. it only amounted to £6,000 and in the reign of Queen Anne it sunk as low as £2,000. Under the wise management of the Prince Consort the Duchy prospered, so that the accumulations of the Prince's minority amounted to between six and seven hundred thousand pounds. Out of this sum the estate of Sandringham was bought, costing £220,000, and in 1857 the income of the Duchy was close upon £58,000.

A Magnificent Tomb.

The most magnificent tomb in the world is the Taj Mahal, in Agra, Hindustan. It was erected by Shah Jehan to the memory of his favorite Queen. It is octagonal in form, of pure white marble, inlaid with jasper, cornelian, turquoise, agate, amethysts and sapphires. The work took 22,000 men twenty years to complete, and though there were free gifts and the labor was free, the cost was £3,500,000.

Progress in Getting Recruits.

Washington, July 24.—The official records show that about 2,500 recruits were enlisted at the various stations last week, or an increase of nearly 1,000 over the previous week.

SAY DEWEY MAY SEE FILIPINOS' FRIEND

ADMIRAL LIKELY TO CALL ON EUROPEAN SYMPATHIZERS.

London Junta Gives Out the Story and Says He Will Labor With Them—Anti-Imperialist League Said to Have Sent a Man to Take Photographs of Manila.

London, July 24.—[Special]—The Filipino Junta here reports that Admiral Dewey is now under orders to see Prof. Plumentriett, of Vienna, and Dr. Meyer, of Dresden, the two leading defenders of the Filipinos in Europe, and who are in the confidence of the insurgents, for the purpose of convincing them that they are in error in their attitude, and of urging them to use their influence toward securing the Filipinos' surrender.

The Junta further says that a journalist just returned from Manila, is now in London with a quantity of photographs taken in the Philippines, and that he is on his way to America, where he will give stereoscopic lectures under the auspices of the Anti-Imperialist League, showing the pictures of the American volunteers in an emaciated condition, and resembling Cuban reconcentrados.

WANT TO STAND TRIAL

Armed Body of the Griffin Faction Reported Two Miles From Manchester.

London, Ky., July 24.—[Special]—An armed body of the Griffin faction were reported two miles from Manchester this morning.

They sent a messenger to negotiate with the Clay county authorities for terms on which they could come to trial. The officers will try to keep the factions from coming together.

Philpots started for Manchester this morning.

GAS KILLS TWO IN MINE

Explosion Entombs Seventy Men But Sixty-eight Escape Injury—Bodies Are Recovered.

Brownsville, Pa., July 24.—[Special]—An explosion of gas occurred this morning in a mine five miles from here in which unknown number of men were entombed. About seventy men were in the mine at the time. The work of rescue was at once begun, and it was found that all had escaped except two. Their bodies were recovered.

BOSTON'S L. A. W. MEET

Arrangements Are About Completed—Promises To Be Most Successful Ever Held.

Boston, July 25.—[Special]—Arrangements for the twentieth annual meet of the L. A. W. here next month are about completed. The meet promises to be the most successful yet held.

TALLYHO PARTY'S FATE

Vehicle Struck By a Locomotive—Five Killed and Six Badly Injured.

Heidenheim, Wurtemberg, July 25.—[Special]—A tallyho loaded with excursionists was struck by a locomotive here this morning. Five of the occupants were killed and six others were badly injured.

Want Popular Elections.

Havana, July 25.—Five public meetings were held here Sunday for the purpose of urging the necessity of holding a popular election for alcaldes, ayuntamientos and all municipal officers. The speeches were calm in tone and nothing was said against the Americans. The holding of elections is considered premature by the authorities. It will be necessary to first take a census of the inhabitants and then to decide who will have the right to vote.

Greater New York Strike Dead.

New York, July 24.—Greater New York's street car strike is dead, though not officially. Out of the brief strike a new political party has been born. It will be christened Aug. 7, when a general convention of labor delegates will gather according to call and the new labor party formally launched. So far this was the one development of the strike. All the cars in Brooklyn, including the Coney Island lines, are running on schedule time.

Reciprocity Pacts Signed.

Washington, July 24.—The reciprocity treaties recently negotiated between the United States and the British colonies of Trinidad, Barbadoes, Bermuda, British Guiana, and Jamaica were signed Saturday by President McKinley on the part of the United States and by Reginald Tower on behalf of Great Britain.

Explosion on Torpedo Boat.

Vienna, July 24.—A dispatch from Pola, on the Adriatic sea, states that an explosion occurred on the Austrian torpedo boat Adler, killing an officer and four sailors.

ELROY MAN CHARGED WITH RAISING NOTE

CHARGED WITH PLACING OBSTRUCTIONS ON TRACK.

Young Man at Black River Falls Prostrated By Heat Yesterday—Racine Man's Leg Cut Off By Train—Eloping Sheboygan Girl Deserted—State News.

Elroy, Wis., July 24.—J. R. Lanis, of the Steel Range company, was arrested Saturday on a charge of raising a note. The company has been operating in this vicinity for about two weeks and has placed ranges in many farm homes. Fred Ziese was among the alleged victims, having purchased a range as he supposed for \$20. He became suspicious and asked to see his note, but was refused. He then paid the note, which was written for \$64, under protest. It bore marks of erasure and the arrest was the result. Lanis was placed under \$100 bonds to appear Thursday. Should the case be decided against the company a great many others will be commenced.

Leg Cut Off By a Train.

Racine, Wis., July 24.—Rather than lose his life under a train, William Carls suffered his leg to be cut off under the wheels of a train on the Northwestern tracks Saturday. Carls is a foreman of a section crew on the Milwaukee road. He was standing on the tracks talking to another man at Racine Junction, when a train approached. Carls started to get out of the way, when his foot caught in a frog. He made up his mind that he would rather lose his leg than his life, so he lay down with his leg across the track and the body safely on the outside rails and let the train run over the leg. He was immediately taken to the hospital in this city and the leg amputated. The physicians say he will survive.

Deserted By Her Lover.

Sheboygan, Wis., July 24.—Last Thursday Belle Hunt, a handsome girl 20 years of age, eloped to Manitowish with Arthur Burns, employed in the carpenter car of the Chicago & Northwestern railway company. They stopped at a hotel Thursday night and on Friday morning Burns deserted her. Friends here went to Manitowish and found her. She refused, however, to return home, instead taking the Goodrich steamer Atlantic Saturday night for Milwaukee to search for her recent lover. When the boat stopped in Sheboygan, her father and an officer intervened and by threats of arrest induced her to accompany her father to his home. She had known Burns less than six weeks.

Body Shipped to Stoughton.

Milwaukee, Wis., July 24.—The remains of Patrolman Louis Larsen who died from the effects of injuries received by being struck by a Northwestern switch engine Thursday night, were last evening shipped to Stoughton, his former home. The remains were escorted to the St. Paul depot by a guard of twenty-five policemen, six of whom accompanied the body to Stoughton, where the funeral will be held today. Roundsman Weseness will be in charge. The pall bearers will be Officers Ryzyh, Anderson, Olsen, Styng, Styngel and Schlottter. A coroner's jury viewed the body Saturday and they held an inquest at the morgue this morning.

Obstructions on the Track.

Sheboygan, Wis., July 24.—William Meyer, a tramp, twenty years of age, was brought to this city Saturday, charged with placing obstructions on the track of the Chicago & Northwestern railroad north of Mosel. Meyer spent Thursday night in this city, and boarded the blind baggage of the north-bound passenger train Saturday afternoon. He was discovered at Mosel and put off the train. Shortly afterward a pile of stones was found on the track, and Meyer was suspected.

Wisconsin Pensioners Granted.

Washington, D. C., July 24.—Original—Palmer Beulin, Eureka, \$8; Lawrence Griebel, Milwaukee, \$8; Jeremiah S. Huobert, Mineral Point, \$6. Additional—David Conklin, Embarras, \$6 to \$8. Increase—(Special, July 18) Paul Conrad, Marshfield, \$12 to \$24; Henry D. Patten, Whitewater, \$17 to \$24; George H. Gwen, La Crosse, \$6 to \$8; John Brinker, Stevens Point, \$6 to \$10; William P. Hammond, National home, Milwaukee, \$6 to \$8. Original Widows—June De Moe, Wyocena, \$8; Sarah A. Morrow, Viola.

Killed at a Crossing.

Milwaukee, Wis., July 24.—The train on the Northwestern road due here at 3:45 o'clock yesterday afternoon, struck a buggy containing two men at a crossing in the town of Granville. One of the occupants, whose name could not be learned, was killed and the other fatally injured.

Prostrated by Heat.

Black River Falls, Wis., July 24.—There have been three days of intense heat here, the mercury registering 100 in the shade at 4 o'clock yesterday. Young Slegert of Irving, was prostrated by heat while harvesting and has since died. He was twenty years old.

Opposed to Army Canteen.

Madison, Wis., July 24.—As quickly as the mails can carry it to Washington, President McKinley will receive the following petition adopted by the Monona Lake assembly in mass meeting: "The Monona Lake assembly gathered in its twentieth annual encampment, now

in session, to the number of 3,000 or more people, respectfully petition that you issue an order prohibiting the sale of intoxicating drinks in all military camps under the control of the United States and thus carry into effect the law of congress upon this subject, which seems to us to be so distinct and plain, notwithstanding the opinion of your attorney general."

This petition was drafted by Dr. Worden, of Philadelphia, and was adopted by the directors of the assembly before it was submitted to the mass meeting.

At the annual meeting of the stockholders of the assembly Willet S. Main and Wayne Ramsey, of Madison, and Samuel D. Hastings, of Green Bay, were re-elected directors for a term of three years.

Favors American Treaty.

Paris, July 24.—The Temps believes the United States will grant a reduction of 20 per cent in the existing duties and the favored-nation treatment and says: "If this is so France will be able to compete on equal terms in America against other foreign states."

FLASH LIGHTNING CREATES A PANIC

THREE KILLED AND SIXTEEN SERIOUSLY HURT.

Occurred During the Progress of the Athletic Tournament at Charlottenburg, Near Berlin, Germany, Yesterday—Almost Everyone in the Grand Stand Struck—Thought All Dead.

Berlin, July 24.—[Special]—Three were killed, sixteen seriously hurt and a hundred were prostrated by a flash of lightning during the progress of the Athletic tournament at Charlottenburg yesterday.

A tremendous panic followed the flash and as almost every one in the stand was struck by the bolt and prostrated, it was thought at the time that all had been killed.

DIE OF YELLOW FEVER

Gen. Brooke Notifies the War Department of Two Deaths at Santiago.

Washington, July 24.—[Special]—Gen. Brooke notified the war department this morning of the death of Quartermaster Arthur Hayes and George Alson, a civilian employe at Santiago, of yellow fever.

ANOTHER TRIAL SPIN

Probably Be the Last For the Shamrock in British Waters.

Glasgow, July 24.—[Special]—The Shamrock had another trial spin this morning. This will probably be her last trial sail in British waters.

FORECAST OF WEATHER

Chicago, July 24.—[Special]—Forecast for Wisconsin: Fair tonight; Tuesday cooler.

Four-in-Hand Fad.

The beautiful American girl has aspired to the driving seat of the four-in-hand, and may be seen any morning in Eden Park taking lessons in the art of handling a team. The body brake is used for instruction, the "coach" sitting on the box seat beside the fair jeh. Of course, there is the inevitable chaperon, and the horses, one notices with relief, are "sober and quiet nags."

Growth of Finger Nails.

The average time taken for each finger-nail to grow its full length is about four and a half months, and at this rate a man of seventy years would have renewed his nails 187 times. Taking the length of each nail at one-half an inch, he would have grown 7 feet 3 inches of nail on each finger, and on all his fingers and thumbs an aggregate length of 77 feet 6 inches.

A Natural Deduction.

From the Chicago News: Long—You look out of sorts this morning, old man; what's wrong? Short—Family troubles. Long—I'm sorry to hear that. Nothing serious, I hope. Short—I'm afraid it is. I had a misunderstanding with my rich uncle last night. Long—Indeed! Did you lose the ticket?

World's Telegraphs and Telephones.

The London Engineer says the approximate mileage of the telegraph and telephone lines of the world is 2,029,893 and the miles of wire amount to 8,254,004. Of telephone lines only there are 382,417 miles, involving the use of 3,202,550 miles of wire.

An Expert.

Mrs. Fowler—So you have been to sit up with a sick friend, eh? John Fowler—can you look me in the face and say that?

Mr. Fowler—Why, of course I can, Nettie. Do you take me for an ordinary amateur liar?

EVERY SOLDIER IN CLEVELAND READY

Order of the Strike--Officer In Charge.

ADDS FOUR COMPANIES TO THOSE NOW SERVING.

The Adjutant General Said to Have

Equipped Two Out of the Town

Regiments--Crowd of a Thousand

People Gather With Ropes and Demand That Hawley Be Lynched—Employers Still Refuse Arbitration.

Cleveland, July 24.—[Special]—The strike officer in charge of the troops on strike duty, has ordered every soldier in the city on duty today.

This adds four companies to those now on duty.

The adjutant general is said to have equipped two out of the town regiments for duty.

A crowd of one thousand people gathered at the scene many carrying ropes and demanding that Hawley be lynched.

Mayor Farley has wired the governor for more troops.

Shortly after noon a non-union conductor named Hawley shot and killed a fifteen year old boy named Corweitz, for calling him a scab. Hawley is under arrest.

The shooting occurred in the vicinity of many fatal trolley accidents and the murder has caused intense excitement among the Poles and Jews who populate this district.

The police and militia are now preparing for bloodshed in earnest.

Cleveland, Ohio, July 24.—The events in the last twenty-four hours in connection with the strike were more serious than any heretofore reported in either of the two big strikes. More than twenty arrests were made. The trouble began after nightfall Saturday night. The militia was out in force, but this only served to further incense the crowds that attacked street cars.

A Euclid avenue car loaded with passengers was wrecked by an explosion of nitroglycerin or gun cotton shortly before 11 o'clock Sunday night. Four persons were badly hurt, the names of the injured being:

Mrs. E. C. Martin, compound fracture of the skull, right arm broken and internal injuries which will probably prove fatal.

E. C. Martin, right arm badly cut and bruised about legs and body.

Mrs. Catharine Harris, skull fractured.

F. A. Smith, both legs broken.

Albert E. Fassett, legs injured.

Dora Schessler, bruised about the body.

After considerable difficulty the car was stopped and a call for ambulances was sent out. The motorman, William Dragers, who came from Cincinnati, was dazed by the shock, but the conductor, Frank Schroeder of St. Louis, escaped injury. The car was completely wrecked. No arrests were made.

There seems to be no doubt now that Mayor Farley will call out the three or four available military companies in this city in addition to those already under arms. The call will include the battery of artillery, and the governor may be requested to send other troops to the city.

Four companies of the Fifth regiment from Cleveland, the First Ohio cavalry and the naval reserves are guarding the property of the street car company and patrolling the streets, assisted by a large force of deputy sheriffs and the full strength of the police department.

A number of riots, preceded by attacks on street cars, were quelled by policemen and militia.

At Orange street a mob secured a huge boiler and rolled it on the tracks. A fire was built in it, making it uncomfortable to handle. While policemen were trying to remove the boiler they were attacked by the crowd. A general fight ensued in which a number of men were rendered unconscious.

The company sent a note to the state board of arbitration, declining to arbitrate the differences, in which it says: "This company, fully appreciating the sincerity of your desire to bring about a readjustment with its former employes, begs to say that the men who went out Monday last are not in the employ of the company, and there is nothing to negotiate about or to arbitrate."

Dewey Not to Visit Vienna.

Trieste, July 24.—Admiral Dewey has declined United States Minister Harris' invitation to visit Vienna for a few days and afterward to be presented to Emperor Francis Joseph.

"I expect to remain here two weeks and will stay aboard the Olympia. I know Trieste well. The air is doing me a world of good already, and it will soon restore the officers and men. From here we will go to Genoa."

The admiral will sail for Genoa next week, Thursday, Aug. 3. Whether he will stop at any other Mediterranean port is uncertain. A stop for coal will probably be made at Gibraltar.

LOCAL CYCLERS MAY SEE THE "REAL THING"

MILWAUKEE AFTER NATIONAL MEET OF L. A. W.

Large Delegation of Badger Enthusiasts Will Visit Boston August 14 to 19.—Frank Van Wart, of Beloit, to Lead a Helping Hand.—Nat McDougall There.

The Milwaukee Sentinel of this morning has the following to say of the 1900 national meet of the L. A. W. for which the Cream City wheelmen will make a bid:

Now that it has been definitely decided that Milwaukee will make a bid for the 1900 national meet of the L. A. W., Chief Consul F. P. Van Valkenburg, of the Wisconsin division, is organizing a party of boomers to represent this city in Boston during the week of August 14 to 19, when the national meet will be held. Arrangements have already been made to establish quarters at the Brunswick hotel which is the official headquarters of the officers of the Boston meet. The Milwaukee party and those from other parts of the state will leave this city on a special car for Chicago, where they will join the Illinois party under the leadership of "Cy" Davis, and travel direct to Boston.

To Have a Milwaukee Day
F. G. Cramer, secretary-treasurer of the Wisconsin division, L. A. W., has issued an invitation to the local consuls throughout the state, inviting them to join the Milwaukee contingent. Numerous responses have already been received and it is expected that at least seventy-five people will be in the party. Each person in the Wisconsin delegation will be provided with a "1900" badge. Chief Consul Van Valkenburg has made arrangements with the promoters of the Boston meet, for a Milwaukee 1900 day for which they have set aside the afternoon of Aug. 18. Milwaukee day will be celebrated by a boat excursion up the Boston Bay to one of the sea shore resorts where a clam bake, to be called a "Milwaukee Lunch", will be served.

Milwaukee's efforts to secure the great annual gathering of wheelmen from all parts of this country is being endorsed by the Citizens' Business league, who will send a representative to assist the local boomers. Although no other city has as yet made formal application for the 1900 meet, it is expected that Detroit and Omaha will both make a fight for it at Boston. The outlook, however, is favorable to Milwaukee. The preliminary work done by the Milwaukee delegation in Indianapolis last August will not be forgotten by the eastern cities, nor is it expected that many of the cities will forfeit their promises to assist Milwaukee. The national L. A. W. officials, without exception, promised to assist this city in securing the meet. The meet has not been held in this vicinity since 1893, when it was held in Chicago during the World's fair. Almost every year since then it has been given to eastern cities, owing to their strength in membership.

The Milwaukee delegation will take with it a large quantity of literature describing the city's advantage as a convention center. The Citizens' Business league have agreed to furnish Mr. Van Valkenburg with many thousand booklets, illustrating the beautiful surroundings. The railroads and boat lines will furnish pamphlets describing the summer resorts located near the city. The delegation will also take with them the large collection of photographs taken by S. L. Stein and which created so much comment at Indianapolis last August. The collection comprises about 800 photographs, all fifteen by 20 inches in size, giving views of the streets, parks, residences, public buildings and other interesting pictures. These will be exhibited at the Milwaukee headquarters in Boston. One of the local breweries will donate little books and small sample bottles of beer. Buttons bearing the inscription, "Milwaukee Is a Bright Spot for the 1900 Meet," will be given to every person calling at the headquarters.

Wheelmen Will Meet.
A meeting of several wheelmen will be held in a few days, when arrangements will be completed for the entire trip. The road upon which the wheelmen will travel to Chicago will also be selected. Among those who have signified their willingness to join the party are the following:

Robert B. Clark, Chippewa Falls; F. E. Hall, Ripon; Frank Van Wart, Beloit; L. E. Jones, Racine; B. W. Park, Madison; Chief Consul F. P. Van Valkenburg; Secretary-treasurer F. G. Cramer, C. H. Watson, Harry Watson, S. A. Johnson, R. S. Johnson, Mrs. F. L. Johnson, Miss Ida Bradford, Miss E. L. Savoy, Miss F. J. Savoy, Charles Greshly, W. F. Smith, Mrs. W. F. Smith, Con. Reinke, William Bremer, Frank Abrams, Edward F. Jones, Howell H.

Meixell, H. P. Andrae, Guido Krantzer, William F. Sanger and Adolph Wilbrandt.

Only two Milwaukeeans will be seen on the track in Boston, Nat McDougall, holder of the one-mile, two-mile and five-mile state championships, and Orlando Weber. Both of them are now on the big circuit, having received special permits from Chairman Fred Gerlach of the racing board. McDougall will enter all the championship events, and Weber will take in all the handicaps and also the entire one mile national championship. Both are amateurs.

OF INTEREST TO THE FARMERS

Bulletin Issued by the Experiment Station at Madison.

The Experiment Station at Madison has recently issued a bulletin, of interest to every dairyman in Wisconsin. Several farmers who patronize the University creamery, weighed the milk of each of their cows separately, and sent samples to the creamery for analysis. The bulletin gives a picture of some of these cows, and tells the milk and butter each produced in a year. It shows that some cows were money makers while others were kept at a loss. Our farmer readers are urged to secure this bulletin, which will be sent free to all, upon request. Write on one side of a postal card your request for Bulletin 75, and on the other the address, Agricultural Experiment Station, Madison, Wis.

LOCAL PARTY ENJOY OUTING

Go First to Delavan Lake and Then to Geneva Lake

A camping party composed of E. V. Whiton, Jr., Sam Echlin and Charles Reynolds left Saturday night for a two weeks' outing at the nearby resorts, where they will lead a nomadic life until recalled by business cares. They have pitched their tent on the shores of Delavan Lake, where they will camp for a few days, after which they will migrate to Geneva Lake for a short stay. From there they go to Lauderdale to finish up their outing.

Rock River, July 24.—Mrs. S. J. Monroe of Milton Junction, is the guest of her daughter, Mrs. Chauncey Grey. Mrs. C. M. Garthwait and daughters of Milton Junction, and Annie Green of Edgerton, spent Friday at N. M. Rose's. Frank Burnham started Tuesday night, for Minnesota, to look for land. George Richel will work for him during his absence. Mabel Winch and Jennie Rose will teach again in the Rock River and the McRae districts. Ave. Vincent had the misfortune to have a horse shot last week, while in the pasture. It is supposed to have been accidentally shot by hunters. J. G. Estee and family of Chicago, visited Mr. Estee's sister, Mrs. Hattie Pierce, last week. Will Splitter has built a new tobacco shed. Alice Kelly of Albion, visited Mrs. Sebala Looftboro, recently. Mrs. Almira Vincent spent some days with her daughter, Mrs. Daisy Swader of Otter Creek, recently. Mr. Burnham, of Hebron, Wis., came Tuesday for a few days visit with his son, Frank Burnham. Mrs. Menzo Beach and Mrs. Frank Burdick, of Milton Junction, were callers at Kittie Vincent's, Thursday. The Sabbath school picnic was held at Charley Bluff Monday with an attendance of nearly all in the neighborhood and several present from Milton, Milton Junction and Albion. After dinner the following program was held by the school: Singing, by school; remarks by the pastor, Raymond Talbert; song by quartette, by Messrs. Wade Looftboro and Raymond Talbert and Misses Hattie Ashley and Jennie Rose; recitation by Ona Pierce; exercises, by the children; duet, by Roy and Hazel Vincent; select reading, by Jennie Rose; recitation, by Myrtle Grey; remarks by Rev. George B. Shaw, of New York city; duet, by Raymond Talbert and Miss Tarpley. At a late hour all departed for their homes feeling that a pleasant day had been spent.

FREEMPORT BALL TEAM PLAYS HERE TUESDAY

PROMISES TO BE BEST GAME OF THE SEASON.

Visitors Have a Great Record Before Them—Local Club a Credit to the City—Fast Gaining a Reputation Throughout Badgerdom—Exemplary Young Men.

A good record, a growing reputation and an excellent body of young men are the essentials that contribute to make the local Y. M. C. A. team a credit to the city, and such it is in all that the word implies.

The boys are fast gaining an enviable reputation in the ranks of amateur baseball circles, not only throughout Badgerdom, but their importance is being made manifest in neighboring states and strong organized teams from over our borders are challenging them to combat on the diamond.

It is an undisputed fact that the team is an unusually strong one and composed of exemplary young men who advertise the city and our citizens should patronize their games and encourage them by something more substantial than praise. They are deserving of it. It only occupies two hours' time twice a week to lend this encouragement, in which the occasion affords an opportunity to witness games that would reflect credit upon the so-called professionals, and the recreation would prove beneficial to all.

Boys Should Be Encouraged.

Secretary Kline of the Y. M. C. A. has exerted every energy to secure a team that would meet all requirements and should receive the commendation of lovers of innocent amusement for his efforts, which have proven successful in a high degree.

Thus far the attendance at the games has not been as great or the patronage as large as the games merit and it is earnestly hoped that from now on the enthusiasm of old may be revived and the citizens drop the cares of business activity long enough to spend two hours twice a week at Athletic park, where it may be depended they will get value received for their small contribution to the exchequer of a deserving organization.

Good Game Tomorrow.

Tomorrow a game is scheduled that promises to eclipse all previous combats participated in by the home aggregation, when they meet the strong nine from Freemport, Ill. The visitors come with a record equal to that of the locals and a game of unusual interest may be looked for and it is safe to predict that none will be disappointed.

The home team has been materially strengthened by the addition of Tommy Sullivan, who is a clever all around player and in tomorrow's game, as well as thereafter, will act in the capacity of short stop.

The visitors have recently won distinction by capturing three games in succession from the Chicago Unions, the celebrated colored nine, which has been making a tour of the northwest, winning from most every opposing club, but alas, at Freemport they met their Waterloo and suffered the humiliation of defeat, but even with this scalp in the belt of Freemport's chief, Janesville is not alarmed in the least and their warriors will enter the battle with a bold front. Dewey courage, but nevertheless, there is a degree of apprehension as to the outcome and many will be on the anxious seat until the indications on the stick are counted, which we imagine will not take long.

Glass Bricks.

Glass bricks are gradually coming into use, and it is said that glass will soon be used for making statues for public places, as it resists the corroding effect of the weather much better than marble or granite.

The Longevity of Ministers.

From the returns of the registrar-general of Great Britain for some years past it has been conclusively shown that ministers of the gospel enjoy the highest average lease of life of any class of workers. This is, no doubt, due to two or three prominent causes, amongst which may be put their almost total immunity from risks of accident and death that attend certain trades and professions; their general habits of temperance, moderation and regularity as compared with most workers; and their daily exercise, study, etc., which give a combination of mental and physical recreation of outdoor and indoor life, such as few other workers get, and which must prove beneficial to health. Out of every hundred people in each class, forty-two ministers, forty farmers, thirty-four teachers and twenty-four doctors live to the age of seventy.

Sparrows Eat a Stone Chimney.

Mr. C. M. Wyson, who lives near Lincoln Court House, W. Va., has had a queer experience with English sparrows. At the north end of his house he had built a stone chimney. The stone was rather soft, and the English sparrows, hundreds of which are found in that vicinity, soon began an attack upon it. The birds would light on the top or sides, sometimes by hundreds, and peck away at the stone until the finally succeeded in picking it to pieces so badly that it crumbled and fell. Why they did so Mr. Wyson can explain only on the theory that the birds used the grains pecked from the rock for digestive purposes.

A NEW GAME CONTEMPLATED

Will No Doubt Be Sufficiently Fascinating to Rival Golf.

The editor of the Lake Mills Leader is responsible for the story that "A new game, yet unnamed, is contemplated, which will no doubt be sufficiently fascinating to rival golf. It is played with tent pins and a woven wire fence; the player standing back toward the fence and throwing the tent pins over the shoulder so as to pass through the holes in the fence 100 yards distant without making any noise. None but the elite and army officers with their shoulder straps on are expected to play it."

CHILDREN ENJOY THEMSELVES

Miss Kittie Mahoney the Hostess at a Children's Party

A children's party was given at the home of Mr. and Mrs. Cornelius J. Mahoney, 160 Locust street, Saturday afternoon, in honor of little Miss Annie Blackburn, of Baraboo, Wis., who is the guest of Miss Kittie Mahoney, which proved a most enjoyable affair. The afternoon was spent in playing games on the lawn and supper was partaken of by the little ones who enjoyed the inviting repast and later bade good night to their youthful hostess.

Wedding Rings.

The ancient supposition that a vein led direct from the fourth finger to the heart, and the fact that this finger is used less than any other, the ring being thereby less liable to receive injury, were doubtless the root of the old custom of placing the wedding ring upon the fourth finger of the left hand.

THE AUTOMOBILE GIRL.

She Has Come to Stay. For Her Fad Is Ultra Fashionable.

By Annette Crawford

The automobile girl is here. Hers is the very swiftest of fads, the most exclusive of sports. Almost anyone may bicycle or golf, but it takes a long, fat purse to indulge in an automobile.

Thus early in its career fashion has claimed the automobile for its very own. The American automobile girl is prompt to appear in the field. Only her Parisian sisters were before her. In London it is still considered bad taste for a woman to ride unaccompanied by a gentleman in a motor carriage, and no English woman of standing has yet been bold enough to defy public sentiment on this point.

But the American girl long ago—that is, months ago—adopted the automobile cab for shopping and calling purposes. Now she has dispensed with the hired driver and taken the steering lever into her own hands. In her park phaeton or cute little dog cart, propelled either by electricity or gasoline, she glides fearlessly along the avenue and boulevards, very much at ease and looking sweet and happy and altogether charming.

The bicycle girl, with her hot, flushed face; the golf girl, with her short skirts and dusty boots; and the yachting girl, with her stringy front hair, suffer sadly when compared with this queenly young creature who leans gracefully back against the thick cushions in all the finery of morning attire and sweeps noiselessly past.

It is the ability to wear the finest of gowns while indulging in this sport that has decided fashion in favor of the automobile. It is a fad which a

THE AUTOMOBILE GIRL.

Woman may pursue and at the same time look her prettiest. So it has come to stay.

Newport is just now the principal habitat of the automobile girl. The smooth shaded boulevards of that fashionable seaport are fairly alive with horseless vehicles of every sort. Stand at any point on Bellevue avenue in the afternoon and you can count them by the dozens.

They may also be seen along the ocean boulevard which connects Long Branch with Elberon, Seabright and Asbury Park on the populous Jersey coast. Chicago belles have gladly welcomed them, and Prairie avenue glistens with the nickel and varnish of the self-propelled carriages.

This season the automobile girl is a novelty; next year she will be an established fact, surprising only to people from the remote ruralities.

Her conveyance is a light and graceful carriage, with wire spoked wheels and pneumatic rubber tires. It moves to the right or to the left at the slightest touch of the nickel plated lever.

Sometimes the fair owner commits the guiding of the machine to her groom or to her escort, but that is not very often. She can drive the automobile herself, and she has a just contempt for all bicycles, trucks and ice wagons. The pressure of her toe upon a pin sets the going to ringing, and a twist of the lever stops the carriage. She need not worry lest her carriage runs away with her, and she has no fear of iron shod heels suddenly appearing over the dashboard.

The horsewoman, the bicyclist and all the rest of them must take a back seat, for the girl with the automobile has come to stay.

She goes shopping in the morning hours and permits the machine to stand in front of the shops without having the slightest fear of finding it tearing down the street when she returns. She travels in state to make calls in the afternoon, and if she will she can take a spin into the country. She can load her carriage with golf sticks and with her companions hurry out to the clubhouse and spend the afternoon on the links. She has no horses to worry her with the thought that they are hot and uncomfortable.

The automobile needs neither feeding nor watering. If the battery is strong enough it will easily carry her a score of miles and bring her back again without additional charges of electricity.

It will not be many years before there will be little stations all along the principal highways where automobiles can be charged with motive power and sent whizzing on their way.

TEACHING SOLDIERS HOW TO SHOOT.

How Recruits For General Otis Are Drilled in Marksmanship.

By Captain T. B. Francis

The recruits with which the regular army regiments sent to General Otis are filled may not be able to drill with the precision of the long service soldiers, but they will be able to shoot with the best of the "doughboys." Heretofore we have been in the habit of teaching our new soldiers the drill first and allowing them to pick up marksmanship afterward.

But that was when our army was used for show purposes more than for the grim business of war. The Cuban campaign of last summer soon demonstrated to the army officials that it was far more important for a man to know how to shoot straight than to hold his gun properly.

So the new recruits who are being sent to the Philippines are first taught to shoot. Their drill will be perfected afterward.

For this purpose the government has established the Presidio rifle range just out of San Francisco. During the last two months more than 3,000 recruits have been taught how to use their rifles. While they have been shooting at dummy targets the fact has been impressed upon them that they will soon be shooting Filipinos who will shoot back unless stopped by American bullets. This has inspired the amateur marksmen to become apt pupils.

The new Presidio rifle range lies in a deep valley near the Italian cemetery. Seven automatic targets, each containing the silhouette of a kneeling figure, instead of the old fashioned bullseye, are stretched along the edge of a deep bulkhead, which is fronted by one-half inch steel plates and heavy sand in-trenchments.

There at the 100, 200, 300 and 500 yard ranges the recruits are instructed in their work under the guidance of Captain W. N. Hughes of the Third

DRILLING RECRUITS IN SQUAD FIRING.

teenth United States Infantry, who is one of the finest marksmen in the service and the holder of numerous championship medals. From 8 o'clock in the morning until 5 o'clock in the afternoon the men are kept at their task and take their turns at the targets.

The difficulty that their instructor experiences is not in getting them to attend to their work, but to keep them from obtaining more than their share of shooting.

The love of using firearms seems to be inherent in the native born American, and the rapidity with which the newest enlisted men master the details of the practice is wonderful. Forty-eight hours has been found amply sufficient time to transfer an awkward, bungling beginner into a fairly good rifleman, and from that on he improves with every shot he fires.

The process which is responsible for this transformation is full of interest. The recruit is first taught how to use the sights of his rifle. Then comes the instruction in aiming from a standing position and after that ten minutes' trigger snapping practice.

The pulling of a trigger would seem to most people a very simple thing to master. As a matter of fact it is a most important operation in rifle work and not by any means an easy one to learn. Then comes the "position." It is essential that a man be instructed exactly how to plant his feet, how to hold his rifle and how to brace the stock against his shoulder before taking aim. Then, when the rudiments have been mastered, he is taught to load his gun and is finally allowed to take his place beside the scorers and fire his allotted number of shots.

If he makes less than 13 points on the first day, he is given a second trial at the range, and, more often than not, far eclipses his first score. On the second day he takes his place in the line again and is put through the whole work once more, finishing up with a thorough instruction in the kneeling and sitting positions.

In addition to the automatic targets, the Presidio range contains three other forms of mark. These are made of canvas stretched over iron frames and are accurate copies of the positions men assume when standing, kneeling or sitting in the act of shooting.

In order that the recruits may not be kept out of practice for the whole length of time consumed in their trip across the Pacific, Captain Hughes is advocating to the war department a regular system of bottle shooting on the transports. This practice will not only serve to keep the men in excellent shape as far as their rifle work is concerned, but will do a great deal to relieve the monotony of the trip and break up the tiresome routine of the long voyage to the Philippines.

A Mother's Duty

It is to see to it that her children begin early in life to shampoo their heads regularly once a week. In each instance, after the hair is thoroughly dry, some mild, health-giving tonic should be applied to the scalp to aid nature in creating the best possible growth of uniformly colored, lustrous, healthy hair—the most important feature in the make-up of beautiful women and handsome men. For more than fifteen years, the

7 Sutherland Sisters' Scalp Cleaner

has stood at the apex of all shampoo washes, while the "Hair Grower" has been equally successful in its efforts to return the injured scalp and almost lifeless hair to their original healthfulness.

THIS DAY IN HISTORY.

624—Caliph Abu-Bekr, first successor of Mohammed, died.
1783—Simon Bolivar, South American liberator, born in Caracas, Venezuela; died 1830. Bolivar descended from a noble Peruvian family. He studied in Europe and witnessed the closing scenes of the French revolution. Returning to America, he visited the United States, then joined the revolutionary movement in South America. Successively as general, dictator and president, he led the fight against Spain, he led the fight against Colombia and Peru.
1796—John Middleton Clayton, statesman, diplomat in the Clayton-Bulwer treaty, born in Sussex county, Del.; died 1866.
1798—John Adams Dix, general and statesman, born in Bosceawen, N. H.; died 1870.
1808—Alexandre Dumas, the novelist, born; died 1870.
1868—Martin Van Buren, ex-president, died at Kinderhook, N. Y.; born 1782.
1886—Rev. Edward Beecher, one of the famous seven brothers, died in Brooklyn; born 1803.
1897—General Lafayette McLaws, a noted Confederate officer and a veteran of the Mexican war, died in Savannah, born 1821.

ALGER PLEDGED HIS FORTUNE.

The newspapers that have been waging relentless war on Secretary Alger will probably refuse to give space to the following clipping from The Chicago Inter-Ocean:

"In this emergency [when the declaration of war was almost certain] Secretary Alger did one thing which has never been made public. He called to Washington the manufacturers of powder and explained the situation to them. He then entered into a personal contract with them by which they were to run their works to their full capacity day and night, and hold the whole product for the government. He had no public money for this, and gave his individual bond guaranteeing to take the whole stock of powder manufactured. He made himself liable for many thousands of dollars in case war was not declared, but he felt that the emergency justified the risk he took. He entered into similar contracts with other manufacturers, agreeing to protect them with his own fortune in case the government did not need the product. Secretary Alger began the preparations for war on his own individual responsibility and conducted his business on a sick bed, and the nerve of the man overcame the physical weakness, so that by the time war was declared he was back in his office, and there he has been almost constantly since.

"The president said not long ago that history would do Alger justice, as it has justified Stanton. History would show that the Spanish-American war was the most successful and the most humane war ever fought by this country, and that war was conducted by Secretary Alger. The secretary has endured more mean and malicious abuse than was the lot of Stanton, for some of the newspaper scavengers have not allowed his family to escape, but sought to intrude into the family circle to secure gossip, and, not satisfied with that, have tried by every means to get their meanest attacks to Mrs. Alger by sending them in anonymous letters to her. Had not Mrs. Alger possessed remarkable courage and a philosophical disposition, the burden would have been much harder for the secretary. But she stood by him with cheerful philosophy and faith in the justice of the people, and they are now both relieved that the end has come. They will take a rest, and they still believe that the sense of justice of the American people will not long be blinded by the malicious war scandals."

Bob Ingersoll, orator, soldier, and statesman, has been ushered into the great beyond. His abilities were matchless, and had he directed his energies along different lines, he could have the greatest honors that the people could bestow. He preferred, however to "ride his hobby", and his criticisms of the Holy Writ precluded political advancement. Few men of Ingersoll's talents are born into the world, and he leaves behind him a reputation that places him among the "conspicuous Americans," in spite of the fact that his religious teachings were not popular. On all other subjects, he was sound to the core, and in spite of his unbelief, his memory will be kept green by all people who admire a gifted man and patriotic citizen.

Iowa people are "prospering." Dispatches say that the monthly report of the Des Moines clearing house shows that bank deposits in Des Moines have about doubled in eighteen months since Jan. 1, 1898. At that time the deposits were \$6,556,524; today they are \$12,684,318. Strange, isn't it, that such prosperity always follows the enactment of republican legislation.

Indiana people now have money to ride on the street car, as is shown by the announcement that the Union Traction Company, which controls the street railway plants in Alexandria, Anderson, Muncie, Marion, Elwood and Fairmount

has granted an increase of wages to its employees of from 3 to 15 per cent., varying for time spent in the employ of the company. Three hundred men are benefited.

The "round robin" may have been drawn up for advertising purposes only. None of the correspondents, that we know of, have been given the privilege of signing their dispatches, and perhaps they feared that the people would not know them when they got home.

Bob Ingersoll did not die until after "Kentucky went republican," and as he had agreed to accept christianity when it did, perhaps his "new life" will not be so uncomfortable after all.

Michigan people, regardless of politics, pay compliments to Secretary Alger, and will welcome him home with a big public demonstration at Detroit.

The gubernatorial kissing bug is circulating about the state, but we have not heard that anyone has as yet been seriously bitten.

Bryan has snubbed Altgeld and allied himself with the Harrison forces—in other words he "passes the J. P."

Now that Secretary Alger has resigned, the newspapers will be compelled to fall back on Dreyfus again.

Secretary Root will probably cause the war department to branch out.

'NEATH THE SHADOW OF DEATH

James A. McNeice.
Funeral services over the remains of the late James A. McNeice were held at St. Mary's church this morning at 9:30 o'clock and the interment was in Mount Olivet cemetery. Mr. McNeice died in the town of Janesville Friday night, aged thirty-nine years. He leaves to mourn his loss two sisters and three brothers, Mrs. Sarah A. Murphy, of the town of Porter; Mrs. Ellen Murphy, of Oregon; John McNeice, of the regular army, stationed in Montana; Daniel McNeice and Matthew McNeice, of Brooklyn.

Merritt De Groat
Merritt De Groat, an inmate of the county asylum, passed away this morning at that institution, aged seventy-eight years. His death was due in a measure to the infirmities of old age, although it was partly the result of an accident, in which his hip was dislocated. Mr. De Groat was a native of France.

The funeral will be conducted from Kimball's undertaking rooms tomorrow morning at 10 o'clock, and services will be held at Oak Hill cemetery, where the remains will be interred.

Good Reasons Why heavy, square edge

Cushionet Turns

Are comfort giving, easy walking and longest wearing Shoes for women.

In Construction.

"Fitting up" the sole, manner of lasting, sewing and making, Cushionet Turns are entirely unlike any other Shoes, and we have secured exclusive sale for Janesville.

Results are Showing

That Cushionet Turns do not rip and that they will also outwear any other Shoes for walking on hard pavements.

The Reasons

For their not ripping are in the improved methods (patented) of channeling the sole and the way of sewing and protection of the stitch.

They Wear Longer

Because the very heavy soles of finest leather will not wear through quickly to the channel as in ordinary turn Shoes, and, being flexible, they do not grind out as well Shoes are liable to do.

Cushionet Turns

Are easy Shoes for walking purposes. The elastic felt cushion which is stitched to a heavy canvas and is then covered with a kid sock lining forms a perfect treading surface and keeps the foot up and away from the pavement or hard walks. Felt, being a non-conductor of heat or cold, Cushionet Turns are constructed on hygienic principles. While the felt does not come in direct contact with the feet in these Shoes, they are cooler in summer and warmer in winter, because the heat or cold of the pavements does not penetrate this cushion.

We have all sizes and widths. Don't fail to see them.

Every Person Should Take an Outing

One can do enough more work during the year if the week or two away from business and house cares is indulged in. You owe it to your health, and, as the old saying goes, "Live While You Live, for You Will Be a Long Time Dead." The first thought in connection with the picnic or outing is the list of eatables. You cannot have a really enjoyable time unless you have plenty of good things. Your appetite is whetted and you eat more than you ever do at home. Our store is full of good things for picnickers. It is the acknowledged headquarters along these lines. This list will help you in making selections.

JANESVILLE PEOPLE SUFFER FROM HEAT

NINETY EIGHT YESTERDAY
AND NO RELAXATION.

City Parks and Nearby Resorts Thronged With People in Hopes of Finding Comfort and Contentment—Showers Promised Failed to Materialize—Streets Deserted.

During the past three days it has not been necessary for Janesville people to consult a thermometer to ascertain the fact that it is hot, and the salutation of friends we chance to meet on the street commencing with "Is it hot enough for you?" only adds to the intensity, and pardon us for expressing our censure of such a meaningless query, but it makes us a "dum" sight hotter. Yes, it is hot enough for us.

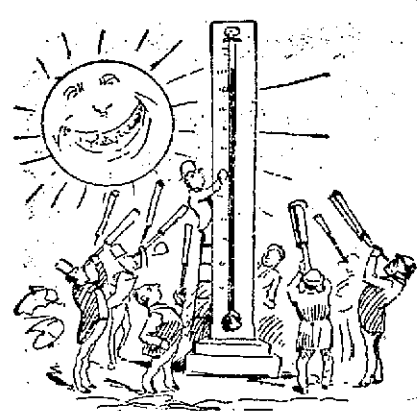

The weather forecast for Saturday was "Fair tonight; probable showers Sunday." We looked for the showers and looked in vain. It was in anticipation that the atmosphere might be cooled a degree and lessen the sufferings of humanity, which have been greater than the readings of the thermometer would indicate, which is due to the fact that hardly a breath of air was in circulation.

A Day of Outings
Notwithstanding the heat of yesterday, it was a day for outings and many hid themselves to nearby resorts and secluded spots in hopes of finding contentment and comfort. Shady groves

and the city parks, especially the court house house park, were eagerly sought by the masses and the street car company did a land-office business in conveying trolley parties who enjoyed the little breeze created by the motion of the cars, while many went in search of zephyrs up the river.

During the day the streets were almost deserted and the usual Sunday drive was postponed until evening. The highest mark of the thermometer was 98 degrees in the shade and during today there has been no relaxation and the activity has increased the suffering, if anything. This morning at 10 o'clock 86 in the shade was the mark registered which has increased until this afternoon.

when yesterday's high mark was reached, though at the noon hour the sun was obscured by clouds, making it more of a pleasure to live, but yet it is too warm for comfort. Indications point to relief in refreshing showers.

Other Localities Suffer
The condition of the weather was not confined to the region of Janesville. Down south it was more than oppressive it was parching hot. Abilene, Texas, reported the highest temperature with 102 in the shade—the record breaker of

the summer on the weather map. The Ohio valley suffered under 92 degrees, with little or no air to sooth the fevered brow, the heat turned up the Mississippi valley as far as St. Paul with its 90 degree record, and Missouri, Kansas, Tennessee, Georgia and Alabama gave in reports of rain, with temperature of the Janesville brand.

In the wheat regions of Dakota and the far west there was a fall of temperature from that which during the latter part of last week threatened to burn up the crops and the bulletins were encouraging.

SHRIMP A LA CHOLE.—Put two table-spoons of butter into a saucepan, and when it is hot put in two young onions, sliced, two green peppers, chopped fine, small tomato or tomato catsup, salt, black pepper and a dash of cayenne; let it simmer very gently for a few minutes, then strain and put back on the stove, dredge in a little flour (about one tablespoonful), and when perfectly smooth add a cup of cream or rich milk. Have the oysters or shrimp picked out from the shell, in small pieces, put in the sauce and leave on the back of the stove until thoroughly heated; serve on toast. This can be prepared on the chafin dish.

BEAN SOUP.—Soak big black beans all night, put on fire early, in morning, with three pounds of lean beef and one of salt pork; cut in slices. This makes soup for six people. Water must be put on in beginning for that number, and to allow three quarts or a gallon for boiling away. Boil slowly all day, mashing the beans occasionally. When dinner is ready salt soup with a little vinegar as needed, juice of a lemon, two tablespoonfuls of sugar. Before serving pass through a sieve, forcing the soup through top; put on stove to have it hot, add slices of hard-boiled eggs and lemon and two wineglasses of sherry.

Paris, July 24.—It is announced that the Dreyfus court-martial at Rennes will open on Aug. 7.

SUIT TO RECOVER PROPERTY INCOME

INTERESTING EXAMINATION
JUST COMPLETED.

Preliminary to the Proposed Case of Mary Hall Fillingham vs. John Nichols, Both of Beloit—Case of State Against John Connors—Other Court Matters.

An interesting examination has just been completed in the office of Court Commissioner Edwin F. Carpenter. It was the preliminary to the proposed case of Mary Hall Fillingham vs. John Nichols, both Beloit parties, but well known here. Mrs. Fillingham was the widow of the late Robert Hall, who died in 1896, after which she married Fillingham. John Nichols, the defendant in the case, lived with Hall from the year 1894, when he was three years old, until the time of his marriage, shortly after he attained his majority. In 1894, Hall, having no children of his own, deeded some \$10,000 worth of his property to said Nichols, the deed of which was not placed on record until the year 1898.

The examination of Nichols and his wife, Eliza N., just finished by the court commissioner, was for the purpose of allowing the plaintiff to plead more definitely her complaint. The examination showed that at the time of giving the deed in question said Nichols agreed to allow plaintiff the net income of the property during his natural life, and it is to recover the same that the suit will be brought. Before answer is put in, the defendant is required to appear before the commissioner and testify in regard to the matter and controversy.

Joel B. Dow, of Beloit, and William Smith, of this city, are the attorneys for the plaintiff, and E. D. McGowan has been retained to defend Nichols.

The outcome of the case will be watched with interest.

Arquette Case Continued.

This was Judge Fifield's busy day. The case of the State vs. John Arquette, charged with arson, came up this forenoon, and was continued two weeks, by consent of all parties.

The adjourned case of John "McGinty" Connors, who was charged with assault and battery, was called at 2 o'clock p. m., the complaining witness being Dr. George H. McCausey, who charges McGinty with wilfully, feloniously, and maliciously ejecting a large mouthful of water (estimated at something less than a quart) into his face, much to his discomfort and his disgust. Mr. Connors, who had decided to plead not guilty, after consulting with his attorneys (?) changed his plea to guilty and was fined \$1.00 and costs amounting in all to \$4.00, which he paid under protest. Patrick Griffin came to bat next charged with being drunk and disorderly. "Paddy" goes into court to answer to this charge so often that he meets himself, coming out, so he was perfectly at home. Judge Fifield said \$3.00 and costs or fifteen days and he went over the old trail to the "checker board," as he calls it, vowing that he would pay his fine "just to spite John Hogan."

WHEELMEN VISIT RESORTS

Where the Cyclers of Janesville Spent Sunday.

Despite the excessive heat of yesterday, a number of local wheelmen made trips to the near-by towns and resorts, and all report the roads as being in a wretched condition, the recent rains having cut them up badly. Then came the hot days of the past week, which baked them until they have become as bad for riding on as frozen ground would be. The wisest of the cyclers left early, and thus avoided the burning rays of the sun to a considerable extent, returning after sundown. Here are just a few of the trips taken by those who composed the several parties:

Jos. Gazelle, James Haggart and Charles Johnson started out after dinner and rode to Beloit, Clinton, Tiffany and Shopiere. After taking supper at the latter place, the return trip was made.

James Ruggles, an old Janesville boy, but now of Rockford, rolled into the city from Geneva Lake in time for supper. He returned to Rockford by moonlight. George Kueck, Herman Strampe and Ed. Kienow wheeled it to Geneva Lake, Saturday night, returning home Sunday evening.

Frank Sutherland and Harry Nowlan left in the early hours of the morning intent on making a century, their objective point being Woodstock, fifty miles from here. They returned about 7:30 p. m., having earned the coveted bars.

H. H. Blanchard, I. H. Carpenter and William Winbigler took the rough and hilly road to Fort Atkinson, stopping at Hoard's, Lake Koshkonong, on the way back where they took supper.

E. W. Putnam, Frank Sanner and H. R. King left at 6:30 a. m. for Delavan Lake which was made in two hours. After a day most pleasantly spent at the popular resort, the return trip was made in good time. They report many local people at the lake.

Frank Malone, W. E. Miller and John Hemming rode to Vincennes, opening at Lake Koshkonong Saturday night, returning home Sunday. Hemming had the misfortune to break his wheel on the trip and was compelled to come back by freight.

E. R. PETHERICK, or "Uncle Dick," as he familiarly known, of Milwaukee, and genial George W. Bishop, of Rhinelander, members of the state board of control, arrived in the city yesterday, and registered at the Hotel Grand. This morning they drove out to the State School for the Blind on their usual tour of inspection.

TWO TRAMPS KILLED IN FREIGHT WRECK

TWELVE FREIGHT CARS WERE
DEMOLISHED.

Accident Occurred at Madison Late Last Night—Train Made Up Here Leaving For the North About 9 O'Clock—Loss to the Northwestern Road.

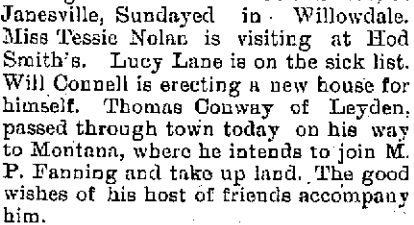

A broken air hose last night piled twelve freight cars in the ditch at Madison, killed two tramps outright and mortally injured a third and for many hours demoralized traffic on the Northwestern road. The wrecked train was a "double header" consisting of two engines and sixty three cars which was made up here and left for the north about 9 o'clock p. m. As it pulled out it was boarded by a number of tramps who had been hanging about the railroad yards. The long train had proceeded as far as South Madison Junction, about one mile from Madison and had reached the top of a long grade when in some manner it broke in two and the second half of the train ran into the first, wrecking about twelve cars. Two of the tramps that got on here were instantly killed, and a third, named Hein, was so badly mangled that it is hardly possible for him to recover. The wrecking crew from Baraboo was sent for, and worked all night straightening things up. The vestibule and all other trains last night were sent through via Jefferson Junction as a result, and the mix-up was general. All the trains in this morning on the Madison division came the same way, the one which is due here at 4:30 a. m. not arriving until 6 o'clock. The vestibule was twenty minutes late. The Chicago & North western railway are rushed with freight business at present, nearly every other train going out being a "double header," and considering the number of cars handled daily, they have been fortunate in not having more accidents.

Whisperings from Willowdale.
Willowdale, July 24.—Mrs. Patrick Connell is on the sick list. Maggie Cassidy is visiting in Janesville. William Carroll is visiting in Litchfield. Mrs. James Carroll was in Janesville, yesterday. WE ARE RULED BY OUR TEETH.

They do pretty nearly as they please with us. The way to do is to take things in your own hands and consult a dentist. What a relief it is to feel that you may bite without getting a wince and selecting a tooth to bite on—what a relief it is to feel that the thing is done—that the pain, the bill and all the disagreeableness generally is all done with. That we can get without fear of pain and danger to our health. We guarantee our work. We will be economical acquaintances.

WALK TO THEIR MEETINGS.

Epworth Leaguers Refuse to Patronize Sunday Street Cars.

SERVICES LARGELY ATTENDED.

Protestant Churches at Indianapolis Crowded with Workers at the Closing Gatherings—Movement for a Union of All the Evangelical Societies.

Indianapolis, Ind., July 24.—The Epworthians, as a rule, followed the precedent set by the members of the Christian Endeavor society at Detroit by refusing to patronize the street cars on Sunday. With few exceptions the strangers visiting clergymen who were assigned to occupy the city pulpits walked to and from their appointments.

With Sunday's meetings the convention is practically ended. Today the board of control of the organization will meet, but its function is largely one of business, so there is nothing more to hold the delegates, many of whom are laying aside conscientious scruples and starting home on Sunday night trains.

Much interest centers around the board of control meeting. After the board has received the reports of the various league officers, the subject of closer union between the Epworth league, the Christian Endeavor society and the Baptist Young People's union will be considered. It is foreseen that the board will do all it can to bring these three organizations under one managing body. Some of the best thinkers in the church, it is alleged, are convinced that the union of the three organizations will hasten the evangelization of the world.

The last day of the meeting was the busiest of the four. The visitors got up in time for holy communion, which was observed in every Methodist church in the city at 8:30 o'clock. Four hours later 120 visiting clergymen preached on the spiritual life in as many churches. The several bishops occupied pulpits and drew more people than could be accommodated. For three hours during the hottest part of the day the visitors rested, and at 3 o'clock filled the tent, Tomlinson hall and the English opera house to hear talks on the missionary work.

At the opera-house Charles R. Magee of Boston presided. The principal address was by the Rev. J. D. Fitzpatrick of Toronto, who pointed out the inadequacy of the missionary force in the field. Other speakers at this meeting were Miss Maggie O. Smith of Helena, Mont.; the Rev. Wilbur F. Sheridan of Pontiac, Mich.; C. V. Vickers of New Haven, Conn., and the Rev. W. R. Richardson of Columbia, S. C.

The subject of missions was taken up again in the four meetings at night, in the tent, Tomlinson hall, English opera-house and Roberts Park church. The farewell consecration services were held at each of the meeting places at 9 p. m.

At five meetings Saturday night the report of the committee on resolutions was read. Among the resolutions is the following, which was adopted by a standing vote at each meeting:

"We acknowledge again our pride in the fellowship of the great Anglo-Saxon brotherhood so noticeably augmented since our last biennial meeting, and reaffirm our wish and prayer for the heartiest co-operation of Great Britain and America in all lands and upon the sea. Between these two countries, and in God's own time among all nations, there should be a league of perpetual peace."

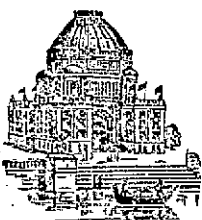

The resolutions view "with pain and solicitude" the decision of Attorney-General Griggs with reference to the anti-canteen act; deplores the encroachments of the Sabbath; protests against the seating of Congressmen-elect Roberts, which it is averred would be an official recognition of polygamy; indorses the good citizenship movement, and pledges the members of the league anew to the world's conversion. At these mass meetings "Temperance" was the topic, and a few of the speakers criticised President McKinley for permitting the alleged nullification of the anti-canteen act.

It is said to be a Russian remedy for insomnia to have a dog sleep in the room and preferably in the same bed. The explanation is that it operates through a sense of comradeship, or of security, and that it may act suggestively. It is said to be a success where other means have failed.

Cumulative Evidence

A proof of merit in any article is the amount of free advertising it receives. The universal success of Fabst Malt Extract, The "Best" Tonic, is largely due to one person's telling another of the benefits derived from its use. It is sold in almost every city and town in the United States. Its purity and efficacy have given it the immense popularity it has attained. It is indorsed by thousands of physicians and patients. It makes strength. It gives vigor and health when every avenue of hope seems to be closed.

When you ask for Fabst Malt Extract, The "Best" Tonic, do not be led into buying something else. Many imitations have recently appeared. Remember that Fabst Malt Extract, The "Best" Tonic, was the only malt preparation declared perfect by the judges at the World's Fair, and alone marked with 100 points of perfection. The way to obtain the greatest amount of benefit for the least amount of money is to have your druggist deliver you a dozen bottles at a time.

THE SIBERIAN LINE.

An Enormous Increase in Murder and Robbery—Attacks on Trains.

The St. Petersburg correspondent of the London Globe writes:

The "Bourse Gazette" has just published the following letter from a correspondent at Tomsk, in which the past and present conditions in Siberia are well depicted.

"The new life" of the country now being called into existence by the construction of the Siberian railway is very clearly to be discerned even at this moment. An immense stream of settlers is colonizing tracts of lands which hitherto have scarcely been traversed, even by the hunter; commercial men and all kinds of nomadic people in search of an easy livelihood are quickly rousing the country from its long sleep of centuries. As a protest against this disturbance of the old order of things, there has come about an enormous increase in the murders, robbery, theft, and all kinds of evil deeds. In the regions traversed by the line, and in the adjacent towns and villages, this state of lawlessness is increasing at a rapid rate; it may with truth be said that scarcely a day passes in the towns of Siberia without the occurrence of a case of robbery, murder, or of some such violent act. Even the trains are attacked, the railway guards are robbed, the railway wagons and depots are frequently plundered, private houses have been broken into and whole families have been killed by these bands of vagrant robbers. In Irkutsk there has been formed a Rogues' Club, which carries on crime in a systematic manner. All along the line of railway life and property are in continual danger, and at Tomsk, Krasnoyarsk and Irkutsk one cannot go about the streets at night without being armed. This state of affairs continued for some time to be confined to the immediate vicinity of the line, and remote villages were left undisturbed. Yenisselsk, Yakutsk and Barnaul had not until recently felt the effects of the "new life"; now, however, these large and flourishing towns have attracted the undesirable attention of the marauding bands, and the result is that crime is rapidly increasing in these three towns. Especially remarkable is the influence exercised by the railway upon the resident peasants; many of them abandon husbandry and take to a wandering existence; a visit to the nearest railway station has filled them with a desire to travel, and, true, to the Russian character, they give themselves up to trade and speculation.

DUG HIS GRAVE.

Built His Coffin, Erected His Headstone and Waiting for Death.

Albany Journal: When one digs his grave, builds his coffin, and carves and erects his own headstone, he naturally is of the opinion that he is soon to shift off this mortal coil. This is what John McAnaw, an inmate of the almshouse, has done. John was born in 1824. At the age of 68 he was sent to the local almshouse and has been there since. He formerly had a home in this city. For a long time he has been seen working about potter's field, and today it was discovered that he had dug his grave and boarded it up. At the head of it he erected a headstone, which he had been working on for a long time. It is an old piece of marble that had been lying around. Over this he placed a wooden hood, so that no one could see what he had cut on it. His coffin he has had built for some time, and it now lies undisturbed in one of the outer sheds. Supt. Armatage will not allow the old fellow to be disturbed in any of his work, so he goes on from day to day, carrying out his morbid fancies.

Historical Official Papers.

M. Marcel Schwob has discovered in the Paris Bibliotheque Nationale a calendar of the cases in the Criminal Court, the Chambre de la Tourneelle, going back to the fifteenth century. Among the papers are the official papers of Joan of Arc's arrest and of her execution, and a decree of the Paris Parliament annulling the judgment by which the Provost of Paris, Villiers de l'Isle Adam, condemned Francois Villon, the poet, to be hanged. The sentence is revoked, but the poet, "in consequence of his bad life," is banished from Paris and its neighborhood for ten years. He was charged with being concerned in a brawl in which a man was killed, but the Court held the evidence against him to be insufficient. The date of the decree is January 15, 1463, which clears up a good many disputed points about Villon.

Exhaustion of British Coal.

Mr. J. A. Loudon, president of the British Institute of Mining Engineers, has estimated that in twenty-five years from the present time many of the best English coal mines will be exhausted. At the present time the outlook of the mines is two hundred million tons, and figuring on an increased demand of 2½ per cent per annum, two hundred and eighty million tons will be required by the year 1925. He suggests that duty be put on coal exported in order to save the supply. It is evident that in another quarter of a century Great Britain will commence to import coal, and the product of the colonies and other countries will be used more than at present in order to meet the demands of the big navy.

Nuisances.

Mrs. Wrentor—What a nuisance it is to hire a house and be unable to have anything done without begging for it! Mr. Wrentor—Yes, but it is a bigger nuisance to be the landlord and to have your tenant eternally begging for something.—Boston Transcript

TRANSVAAL CRISIS NOT ENDED.

Outlanders With Britain to Insist on Five-Year Franchise.

London, July 24.—A dispatch to the Times from Pretoria says that the Outlanders have been given to understand that no abatement of the demands upon the Boer government made by Sir Alfred Milner, the British high commissioner, will be acceptable to the Imperial authorities. The real crisis is, therefore, now held to be within sight. Other correspondents send similar dispatches. The Telegraph's correspondent says that Great Britain has not abated an iota of her demands. No doubt is entertained that by dint of continued firmness a five years' franchise and effective representation in the first raad will be secured.

Plan a Shaft for Ingersoll.

Peoria, Ill., July 24.—Peoria will erect a monument to the memory of Col. Robert G. Ingersoll at Glen Oak park. The movement was inaugurated at a mass-meeting in the Tabernacle Sunday afternoon, when 700 citizens gave vent to their grief over the colonel's death. A resolution favoring the erection of a monument was presented by D. R. Sheen, who was a law student under Ingersoll. The measure was unanimously adopted. A board of trustees, consisting of fifteen members, was appointed with authority to solicit subscriptions for the "Ingersoll monument fund."

LADY CHURCHILL'S MAGAZINE.

The Anglo-Saxon Review,
Most Aristocratic Period-
ical Ever Published.

BY ANDREW DOWNS.

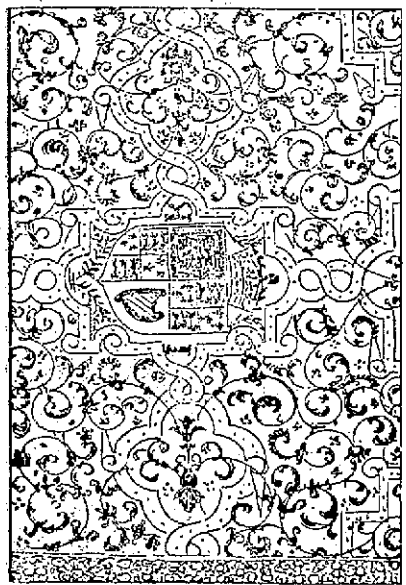

The first number of The Anglo-Saxon Review, that gilt edged literary exploit of Lady Randolph Churchill, is out. It is a quarterly magazine and the most expensive periodical ever issued. Its price is a guinea, \$5, a number. It is published simultaneously in London and New York.

The initial number bears out all the promises of luxurious magazine making with which its appearance had long been heralded. It has about the same relation to the 10 cent magazine that a palace car does to an ox wagon. Those enthusiasts who expected that each contribution would be signed by an emperor, a queen, or at least a lord, may be disappointed, but the ordinary reader will be impressed with the distinguished names of contributors.

As a specimen of bookmaking it is very fine indeed. And so it should be, for this department of the magazine is in the hands of Cyril Davenport, F. S. A., of the British Museum. The cover is of dark blue morocco with a wealth of gilt decoration. The design is a facsimile of a book cover made in France for James I about 1604. It shows the English royal arms enmeshed in arabesques.

It is understood that in the bindings of successive numbers of The Anglo-Saxon the side covers will always be different, though the back will ever remain the same. But in every case the side covers will be a replication of famous bindings of the past, preferably English.

The Review is 12 inches long, 7 1/2 inches wide, 1 1/2 inches thick and con-

tains 250 pages. It is admirably printed on very heavy and expensive paper. The type is large and clear and the margins wide. The illustrations, of which there are eight, are photographs exquisitely executed. The frontispiece is a reproduction of the Ouslow Ford bust of Queen Victoria.

The other illustrations are portraits of Lady Mary Wortley Montagu, from a miniature; George Washington, from a painting by Gilbert Stuart; Sir Robert Peel, from a painting by John Everett Millais; Anne of Austria, from a painting by Rubens; the Countess of Pembroke, from the painting by Marc Gheeraerts, and the Duchess of Devonshire, from a painting by Sir Joshua Reynolds.

"The explanations of the production of another Review will be found in the number of those already in flourishing existence. The excuse must be looked for in these pages," says the introductory by the editor. "The first object of every publication is commercial. 'No one but a blockhead,' says Dr. Johnson, 'ever wrote except for money,' and the Anglo-Saxon is not disposed to think lightly of his wares or set low value on his effort—for otherwise his green and gold brocade would soon be threadbare.

"Miles of newspapers, tons of magazine articles, mountains of periodicals are distributed daily between sunrise and sunset. They are printed; they are read; they are forgotten. Little remains. And yet there is no reason why the best products of an age of universal education should not be as worthy of preservation as those of a less cultivated era. *** This book is published at a price which will insure its respectful treatment at the hands of those who buy it. It will not be cast aside after a hurried perusal. It appears, too, in a guise which fits it for a better fate. After a brief, though not perchance unhonored stay on the writing table, it may be taken up into that valhalla of printed things—the library."

Of the 18 contributors six, including the editor, were born in America. There is a very Henry James story called "The Great Condition." Elizabeth Robins writes about "A Modern Woman, Born in 1680," being Lady Mary Montagu.

Whitelaw Reid tells of "Some Consequences of the Last Treaty of Paris," from which it may be inferred that there will be no more treaties signed in Paris. Lord Rosebery has a fine article on Sir Robert Peel.

When one looks upon the beautiful volume it is patent that many will willingly pay \$20 a year just to see it in their library. It has a great distinction. It breathes an aroma of high society.

THE EIGHTH WONDER.

Famous Palace Built by Philip the Second.

The Escorial, built by Philip II. of Spain between 1563 and 1584, was called "the eighth wonder of the world." It was at once a temple, a palace, a treasury, a tomb and a museum. The edifice stands about 3,000 feet above the sea, facing the mountains, with its back toward Madrid. It is a rectangular parallelogram, 746 feet from north to south, and 580 feet from east to west. The building covers 500,000 square feet of land, or nearly twelve acres. The redeeming qualities of the enormous structure are size, simplicity and situation. It seems to be a part of the mountain on the slope of which it rises. It still looks grand, even among the mountain buttresses. Otherwise it disappoints. Its architecture has little in form or color to commend it. It lacks the prestige of antiquity, and it does not express any religious sentiment. It is now little more than a skeleton of what it was. The living monks who swarmed its courts are here no longer. The revenues on which they lived have been taken away. The French soldiers stole and carried away many of its golden ornaments in 1808. The best pictures have been removed to Madrid. The building has suffered from neglect, exposed to hurricanes and winter snows. It is now used as a seminary, where about 200 youths receive secular education.

HEARTY EXPRESSION

Hundreds Tell of the Change
Which They Have Felt.

The Time Comes for Wisconsin People to
Tell What Has Been Done for Them.

The time has come when people in Wisconsin feel the change. Many people in this city have given voluntary endorsement of the great change they have felt after using Morrow's Kid-ne-oids.

Kid-ne-oids will cure a lame back, kidney backache, urinary and kidney disorders, sleeplessness, restlessness and nervousness. We always like to give reference as to the merits of Morrow's Kid-ne-oids, and this time refer you to Mr. John Kohlman, works at the Bain Wagon Factory, and who lives at 316 Division Street, Kenosha, Wisc. says: "I suffered from disordered kidneys for some time past. I had a dull, heavy pain across my kidneys and it hurt my back to bend over or straighten up quickly. My urine was of a dark red color. I heard about Morrow's Kid-ne-oids and secured a package and took them according to directions, and in three days was completely relieved of kidney backache, and restored my urine to its natural color. I will continue to use Kid-ne-oids and will recommend them to my fellow workmen."

Morrow's Kid-ne-oids are not pills, but yellow tablets, and sell at fifty cents a box by all druggists and by The People's Drug Co.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, Ohio.

Foot Comforts for Hot Weather

There is no complete comfort without foot comfort, and the person who lays in his annual supply of hot weather comforts, without looking here, overlooks his hand, and incidentally, his foot. Here are a few items to give you a chance to note some of your wants for the hot weather.

Our Southern Ties at \$2.00 for men, are made of especially soft, vicid kid, very yielding, and a perfect comfort giver. They are made a little higher than the ordinary oxford, and tie over the instep, and have a very neat square toe. They sell at \$2.00.

Bicycle Footwear is not only worn for bicycle purposes. We are selling them every day for a summer shoe. They are cool and the way they are laced makes them especially adapted for hot weather footwear. We have them in tan or black, in Men's, at \$1.40, \$1.75 and \$2.00. In Ladies' at \$1.98 and \$2.50.

Our Misses' and Children's Strap Slippers have sold very well. We still have a few sizes left. They go at 75c.

\$1.25 is extremely low for such a quality of Oxfords as we are selling. We want you to look at them. They certainly are record breaking foot wearing values for the price. Both colors and new, stylish lasts. We ask you \$1.25.

At \$2.00 we still have a good many sizes left, in those beautiful tan Shoes you have heard so much about. We know positively they cannot be duplicated for the money—\$2.00.

Many money saving snaps in our clean-up lots. Every one of them should be interesting.
